

A CANCOM COMPANY

Project Services: Project Delivery Service Seamlessly transitioning your business

Data sheet

Key benefits

- ▶ Extensive experience of identifying C Suite to hands on skills
- ▶ End to end methodology for success
- ▶ Remove time wasted on recruitment that may not work and replace with an outcomes focused service
- ▶ Our recruiters are IT industry experts who talk your language and understand your issues as they have stood in your shoes

Are you ready for a smooth transition?

Do you need effective project delivery or change management? Do you want a project that is on budget and on time? Is the outcome vital?

Let's do things differently

Done well project delivery can seamlessly transition your business from imagining the 'art of the possible', through to delivering it as 'business as usual'. That's what we are experts in. Delivering project teams that integrate seamlessly into a business and proactively drive innovation. Whether as team players or strategic leads.

Approach

Our end-to-end methodology means we can support any, or every, stage. We'll help you explore the limitless and see new perspectives, from shaping your IT strategy to ongoing innovation. We'll work with you to meet the specific needs of your project. We'll ensure your project goes right.

What we offer:

Outstanding project management

Following our established methodology from initialisation and scoping, through to implementation and controlling. Experts in project recovery and communication planning.

Insightful reporting

Including issue and risk reporting, management reporting.

Experts in collaboration

Able to call on other OCSL teams, services and expertise as and when required.

Delivering superior outcomes

Identify and deliver against Critical Success Factors
