

Data sheet

At a glance

- ▶ Avoid the pitfalls of migration by working with Windows 10 experts
- ▶ Receive services tailored to suit your business
- ▶ Accelerate the creation of your Modern Workplace
- ▶ Define a forward-thinking approach when modernising your EUC environment

Deliverables can include:

- ▶ High-level roadmaps
High velocity roll-outs
- ▶ Audit and modernise the whole infrastructure estate
- ▶ Capitalise on the latest innovations
- ▶ Management, support and improvement as a service

The clock is ticking. The time to move to Windows 10 is now! Whatever your objectives and whatever stage you're at in your Windows 10 journey, we can ensure that you transition to Windows-as-a-Service safely and receive the full benefit of Windows 10.

Customer challenges

Using our services, we can help address the following key questions:

- Where to start
- How to meet the 2020 deployment deadlines and the end of extended support for Windows 7 and 8.1
- How to get most value out of Windows 10
- Help demystify deployment scenarios and servicing
- How to formulate a deployment plan and feature roadmap
- How to engage and train your business
- Securing Windows 10 and how to leverage Defender ATP technology (Windows E5)

Key features

Whilst similar in nature, every Windows 10 deployment is subtly different. There are many influencing factors, including different business drivers, IT drivers, user profiles, data management needs, application and device compatibility and GDPR requirements/constraints. By working with you to understand your business, we can help to develop what 'good' looks like now and for the future. Our experience ensures that you don't get lost on your journey. We can assist as much or as little as you require resulting in a Windows 10 Service designed to provide exactly what you need.

Windows 10 Service: Designed to meet your needs

FastStart

Want a hand getting started?

Our Windows 10 FastStart will enable you to understand the art of what's possible with Windows 10, develop your requirements and pilot the technology. Benefiting from the guidance of our experts, we will get you up and running fast. We'll define a tailored approach and high-level roadmap for your wider rollout.

Light

Already started and need to accelerate and grow your deployment?

Our Windows 10 Light service is for you. Designed to build upon the progress you have already made and to minimise the dependencies. Ensuring a speedy rollout. We'll provide the assurance, resources and knowledge required to safely deliver your project.

Full

Taking the opportunity to transform?

Our full offering contains our complete suite of services to ensure that your business is equipped to fully benefit from and embrace the full potential of Windows 10. We future proof your organisation, by auditing and modernising your infrastructure estate.

Evolve

Do you have a solid Windows 10 environment, but are struggling to keep on top of it? Don't know how to best manage the servicing rings?

Our Evolution services are the answer. The continuous improvement provided ensures you're kept abreast of the latest innovations and can capitalise on them. Want us to do this for you? We can provide varying levels of management, support and improvement as a service.

*We also offer bespoke services depending on your stage and requirements.

Enablement framework

Envision and plan	Assess and Design	Build & Pilot	Prepare for Production
Identify objectives to plan pilot	Design core infrastructure and labs	Build and test initial configurations	Technology best practices and recommended deployment approaches.
