#### Backup that stays up

When disruption happens, it's vital to know your business is fully supported and day-to-day operations can continue as normal. Our approach to Backup is different. We offer a complete service, not just a product. We take time to fully understand all your systems, data and applications.

#### Restore a virtual machine in minutes

Our experts will help you identify the right level of Backup for your organisation. More than that, we'll provide best practice implementation models. We identify any gaps, then suggest the right checks and balances to keep Backup running smoothly every day of the year. Using powerful tools such as OCSL's CloudControl we provide a way to Backup and restore to a file and application level within just a few minutes.

#### Key features

- **Full encryption:** Disk to disk backups for VMware & Hyper-V virtual machines
