- ▶ ISO 27001, 20000, 27018 & 9001

Approaching IaaS differently

IaaS (Infrastructure as a Service) helps scale infrastructure fast. But it needs to be well planned and carefully executed. OCSL can help you identify the best way to manage virtualised hardware and scale servers, storage, network and operating systems efficiently.

IaaS with OCSL

We're extremely agile. Windows or Linux, it doesn't matter to us. Many of our clients choose OCSL because we offer the flexibility and custom solutions others can't. Our performance and availability is unrivalled. Our security and compliance is highly accredited. And because we deliver from our reliable UK data centres, data sovereignty is guaranteed. Using our Framework and expertise we make sure everything's in place for infrastructure to scale securely, with no limitations.

Key features

- 99.95% availability
- Virtually unlimited server instances
- 24x7x365 support
- Tiered incident resolution and agreed SLAs
- Usage & billing reporting monthly
- Backup success/fails reporting daily
- Optional full management & monitoring to OS level

Is this service right for you?

- Are you struggling to support an ever-expanding infrastructure?
- Are you seeking to reduce the effort and cost involved in deploying new servers?
- Are you under pressure to deliver IT projects more quickly?
- Do you have compliance and regulatory requirements for data sovereignty?

Why OCSL Managed Services?

The world of technology offers a wealth of remarkable options. We'll guide you through them. Agility and flexibility are important, as business changes. We'll help continually push your digital potential and meet your ever-changing needs. More than just a service provider, we'll be your strategic, long term partner.
