OCSL

A **CANCOM** COMPANY

CloudControl Portal
Make better decisions, faster

Solutions Brief

A simple-to-use cloud brokerage portal

We've distilled 25 years of expertise to create a unique portal to give you complete control. OCSL's CloudControl Portal offers a simple way to make better decisions, faster. All from one single brokerage portal. Whatever the cloud, you can manage it all in one simple to understand mechanism.

Spin up and stay in control

With simple dashboards, we'll help you work out what to run where. With just one log in, you can start by analysing what is the right cloud solution for your workload. Then quickly migrate to on premise or multiple clouds with the click of a few buttons. Giving you true cloud agility.

Our pricing is simple too. You only pay for what you use. And capped usage and alerts, make it easier to stay in control. The really clever bit is our real time reporting. It gives you the insight to push digital to its full potential.

Key features

- Multi clouds: Azure, AWS, Google and OCSL clouds
- Integration with existing infrastructure and service management tools
- Virtual machine OS choices from cloud vendors
- Library for automation and scaling
- Real-time reporting
- Deployment trail audits

Is this service right for you?

- Are you struggling to support an ever-expanding infrastructure?
- Are you seeking to reduce the effort and cost involved in deploying new servers?
- Are you under pressure to deliver IT projects more quickly?
- Do you have compliance and regulatory requirements for data sovereignty?
