- ▶ Key strategic partner relationships with Cloud vendors and direct connections to Cloud providers

#### OCSL's data centres

- ▶ Government OFFICIAL Supplier
- ▶ N3/HSCN Supplier
- ▶ G-Cloud Supplier
- ▶ Cyber Essentials + IASME
- ▶ ISO 27001, 20000, 27018 & 9001

### Making cloud connections simple and secure

Connecting everything together can be complex - from physical line providers to exchange providers and cloud providers. And once everything is configured you then need to manage billing schedules. CloudRoute solves all of this.

We take care of the complex connections, configuration and WAN providers. Delivering it back to you as a single service. One bill to manage and pay. One expert point of contact to speak to when your requirements change.

Our network is world-class. Our attitude towards security is uncompromising. Our security and compliance is exceptional. We carry the highest accreditations from technology and software leaders. And our own data centre is second to none, holding Government OFFICIAL Status.

#### Key features

- Multi-cloud
- N3 (NHS) secure connection & fully encrypted links
- Up to 10GBs connection
- Less than 4ms latency
- Standard & premium traffic shaping
- QoS (Quality of Service) for key systems
- Resilience: Single, Diverse, Diverse+
- Reporting & alerts on average bandwidth use
- Fixed price bandwidths with annual contracts or longer

#### Is this service right for you?

- Are you experiencing unpredictable cloud connectivity costs?
- Do you want to combine your cloud consumption into a cheaper, more flexible hybrid cloud?
- Do you require encryption and additional security?
- Do you require QoS, CoS and priority traffic shaping for cloud connectivity?

#### Why OCSL Managed Services?

The world of technology offers a wealth of remarkable options. We'll guide you through them. Agility and flexibility are important, as business changes. We'll help continually push your digital potential and meet your ever-changing needs. More than just a service provider, we'll be your strategic, long term partner.
